

Prover data, RocSVM augmentation, unlabeled set with same distribution as train:

	Precision	Recall	F-Score
SVM Performance on full data set, $c = 0$:	0.2088	0.3252	0.2543

Reduced set 1(10%):

SVM Performance on the reduced data set:	0.2929	0.2903	0.2916
--	--------	--------	---------------

peculiar

SVM Performance on the augmented data sets:

SVMAugmented RocSVM:	0.3048	0.2863	0.2953
----------------------	--------	--------	---------------

Reduced set 2 (33%):

SVM Performance on the reduced data set:	0.2134	0.1251	0.1577
--	--------	--------	--------

SVM Performance on the augmented data sets:

SVMAugmented RocSVM:	0.3093	0.3893	0.3447
----------------------	--------	--------	---------------

Reduced set 3 (80%):

SVM Performance on the reduced data set:	0.2055	0.3035	0.2451
--	--------	--------	--------

SVM Performance on the augmented data sets:

SVMAugmented RocSVM	0.1827	0.251	<i>0.2115</i>
---------------------	--------	-------	---------------
